

## Ninety-Five

Ephemeral geometries—  
taut, crisp, yet pliant.  
Visible (but just),  
just, and humble, too.  
Recording  
Declaring  
Alluding  
Transforming  
Yours (couched).  
Theirs (couched).  
Contingencies and absolutes,  
wonder  
and reason.  
Incontrovertible systems  
sent us to the stars.

34

Suspended  
Layered  
(over/under)  
Connections, associations,  
added,  
multiplied,  
cycles do go round.  
Peer up through the shimmering surface,  
insinuate,  
complicate;  
change the conditions precisely, with control.

60

Are we of this space, can I go there...where are you?

72

Variations, each responding.  
Here and now  
clustered,  
climbing—  
conviction/play, is it both?  
A counting game provokes memory  
and history waits, embodied, still.

95

string  
fiber  
slender cord  
thread  
plucked  
tied  
hung  
pitched  
ball  
sphere  
globe  
games  
series  
rows  
knots  
tape  
strip  
bind

19

Muffled, quiet, ordered,  
“hush” ...  
we become the space  
(with interruptions).  
A web of words:  
time repeats  
the breaks, the inconsistencies,  
subtle but celebrated.

42

Rooted,  
anchoring past and present,  
tones  
evaporated,  
moments gone.  
Rhythms bring new life through pattern.  
Substance accumulated then distilled.  
Drawing traces

change and passage,  
Rays and channels—tendrils arcing—  
caught,  
contained,  
absorbed,  
pulsing.

75

The body's relation to  
mass  
form  
line  
marks in time  
generates fields of energy.  
Transparent relativity—  
All geographies made one.
